### REPORT OF THE ALBANY CEMETERY ASSOCIATION

In the spring of 1971, the cemetery trustees placed flowers at each cemetery.

Four cemeteries were taken care of by Kenneth Wiggin, who did a beautiful job cleaning them. Frank Berry also did a great job taking care of the Jewell Cemetery. We appreciate the effort that you both put into this job.

Mr. Alvin Coleman has worked in the Hammond Cemetery this year. He intends to finish clearing it this spring and have some lots ready for sale this summer.

Respectfully submitted,  
JANICE A. HUTCHINSON, Clerk

## **Report of Forest Fire Warden and District Chief**

### **LEST WE FORGET — IT CAN HAPPEN HERE**

Disastrous forest and brush fires that destroy hundreds of homes are more prevalent on the west coast with their dry seasons and strong dry hot winds, but 25 years ago this fall is the anniversary of a disaster that devastated large areas of northern New England leaving villages in ashes with rows of cellar holes and chimneys in a number of summer vacation home locations. Many lives were lost on that destructive day of October 23, 1947, nothing could stop the wind-driven flames.

It is true that such conditions are unusual for New Hampshire but they happened once, they can happen again. The fuel for fires is all around us. All it takes is a firebrand. Only by cultivating a habit of carefulness with fire at all times can we meet the challenge of protection when dry conditions prevail. Please let these reminders be your guide:

1. Never, either when walking, riding or driving, discard a firebrand — a lighted match of a glowing cigarette.
2. Always obtain a permit for any outside burning. The burning of household rubbish is not permitted if your town has rubbish collection. Burning of grass or garden litter can be dangerous. See your warden first.
3. If you camp or picnic, be sure open fires are allowed and if they are, put them dead out when leaving.
4. *Most important* — instruct your children in the danger of the lighted match. A lighted match and dry grass or forest litter is a dangerous combination, which leads to destructive loss and can lead to tragedy.

The past year, 1971, was a favorable year for the control of fires. There were too many fire starts in some towns. We thank those who remembered and ask others to heed Smokey's message.

Number of fires reported and acres burned — 1971 season:

State — 463 fires, 160 acres; District — 42 fires, 16 acres; Town — one,  $\frac{1}{4}$  acre.

HUBERT C. HARTWELL, JR.  
District Chief

HAROLD M. LEAVITT  
Forest Fire Warden

## **Report of Health Officer**

Board of Selectmen  
Town of Albany, N. H.

December 31, 1971

Complaints investigated ..... 3

Two of these complaints were turned over to the State Pollution Control Board, the other was taken care of after threatened Court action on advice of Town Counsel.

Septic Tank disposal permits granted ..... 3

Permits held up until clarification of State approved plans are received 1

A permit is required from the State Water Control Board before filling any wetland or shoreline and a permit is required for the erection of a building on any shoreline before you start.

I have inserted the above in this report as without much question, a lot of residents don't know this and some do and ignore the fact. This will inform the residents of the Town of State Laws that are encroaching on local control more every year.

Respectfully submitted,  
BURTON BLAISDELL, Health Officer

**THIS BEAUTIFUL TREE** was cut down along the Kancamagus Highway in Albany, N. H.

The New Hampshire tree that graces the Capitol grounds in tribute to this Christmas season came from the White Mountain National Forest.

This tree has seen the brilliant colors of many autumn seasons and the deep snows of New England's winters. It has grown in the shadow of some of the most beloved mountains in these United States.

It has served well as an inspiration to all.
